Easy to Clean

Cleaning shelving shouldn't be a major production. Whether daily or scheduled, cleaning can be done quickly and easily without interrupting storage space or normal, day-to-day operations.

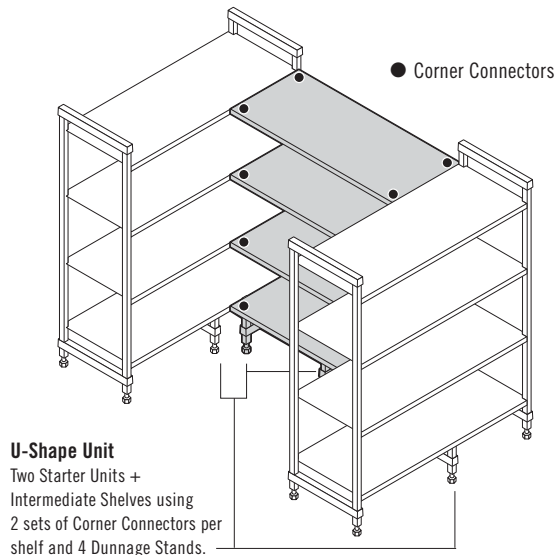

Easy to Adjust

Each shelf can be easily and independently adjusted to accommodate a variety of storage products and packages as product and storage needs change.

Corner Unit

4 Shelf Unit Weight Bearing Chart

* Dunnage Stands add stability and increase weight bearing capacity on bottom shelf only. Add to any shelf length. Highly recommended for Starter Units 1380 mm and longer, all Corner Units, U-Shape Units and units specified for heavier loads (see page 92).
 ** Due to the weight bearing capacity of casters, maximum weight load on an entire Mobile Unit is 340 kg.

High Density Storage Floor Track System

Maximize storage capacity by creating storage aisles in all available space. This simple system is composed of stationary starter units anchored to a raised floor track system at both ends with high density mobile units installed in between. Easy to install track requires no drilling or gluing.

High Density Mobile Units are available with factory assembled post kits, vented or solid shelves and high density casters and bumpers. Full track and extension kits ship complete with required hardware. Stationary Starter Units are required to anchor the system at both ends. Choose from a wide selection (see pages 98-99).

Stationary Unit*

High Density Mobile Units

Stationary Unit

Raised Floor Track provides a smooth and level surface to easily roll mobile units. Raised track ensures dirt will not get trapped and is easy to clean. Aluminum track and stainless steel hardware are rust resistant.

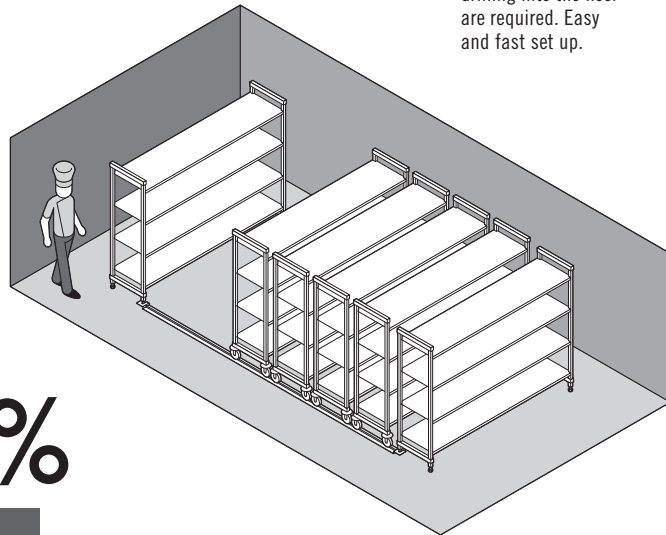

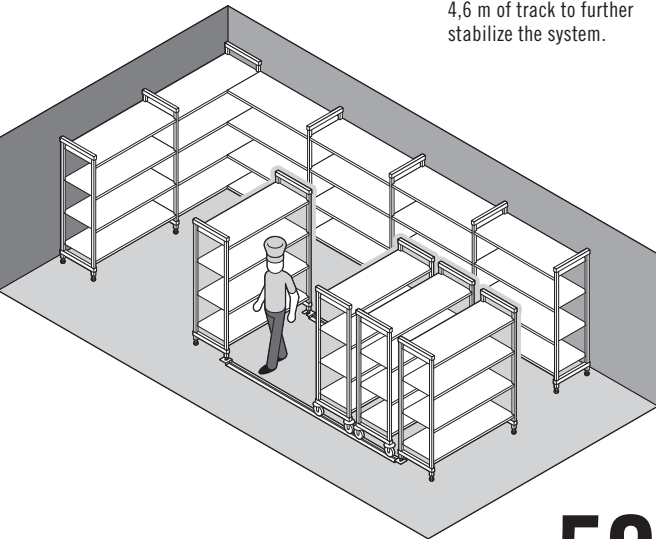

Grooved casters roll easily and securely on raised track.

Raised track connects easily to the bottom of a stationary unit that works as a system anchor. No bolts, no glue or drilling into the floor are required. Easy and fast set up.

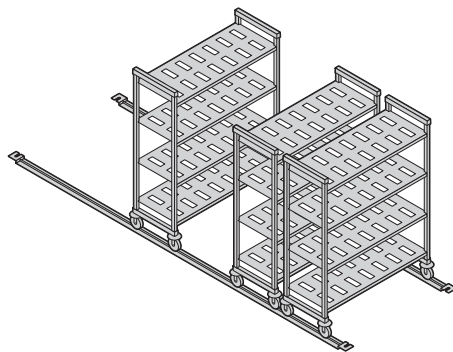

* It is recommended to use a stationary unit for every 4,6 m of track to further stabilize the system.

CAMSHELVING® ELEMENTS series

WHY CHOOSE ELEMENTS?

Made from a revolutionary, extremely strong composite material with a smooth, easy to clean surface. Elements Series is stronger than common wire shelving. It's lighter in weight than Camshelving Premium Series and totally impervious to moisture, chemicals and liquids that can destroy shelving over time. Elements Series is designed for medium to heavy storage use in freezers, coolers, dry storage or warewashing areas. It easily supports the performance demands of a busy foodservice operation.

CAMSHELVING® **BASICS** series

WHY CHOOSE BASICS?

Just because the budget is tight and storage needs are less rigorous, it doesn't mean that shelving performance and storage efficiencies should be compromised. Basics Series is made from the same high performing, strong composite material as Elements Series and has the same design features. It's lighter in weight and less in cost but still strong enough to handle light to medium storage demands.
