

HOSHIZAKI

Crescent

Ice Machine

KM machines produce clear, crescent shaped ice. The unique shape is extremely versatile and extends from the splash-free serving of post mix soft drinks through to diverse applications such as fish transportation, food display etc.

KM Edge Cube Dimensions

KM Series – Crescent Ice Machine

Key Features and Benefits:

- Unique dual-sided ice-making method increase single ice output, thereby reducing water and energy consumption.
- Produce INDIVIDUAL, CRYSTAL, CLEAL Crescent ice as only the purest water molecules will be frozen on the evaporator, washing most of the minerals and impurities down the drain.
- Vertical stainless steel evaporator with long durability.
- The controller board manages the freeze cycles and adjusts the setting to accommodate external factors that influence the ice making process.

New KM Edge Evaporator:

- Increased efficiency with maximized surface area, increased productivity and energy saving.
- Fast harvest cycle for increased production.

* Power Supply: Single phrase / 220V / 50Hz
* Ice Maker Operation Conditions: Test Ambient Temperature 10°C and test water temperature at 10°C
* Model number with "W" = Water Cooled Condensing System

Ice Bin

In order to ensure ample quantities of ice all the times, Hoshizaki offers a wide range of storage bins that configure perfectly with its ice machines. Additional top panel may necessary to seal off the bin completely to avoid external contamination. Please refer to the following table to match the suitable top kit

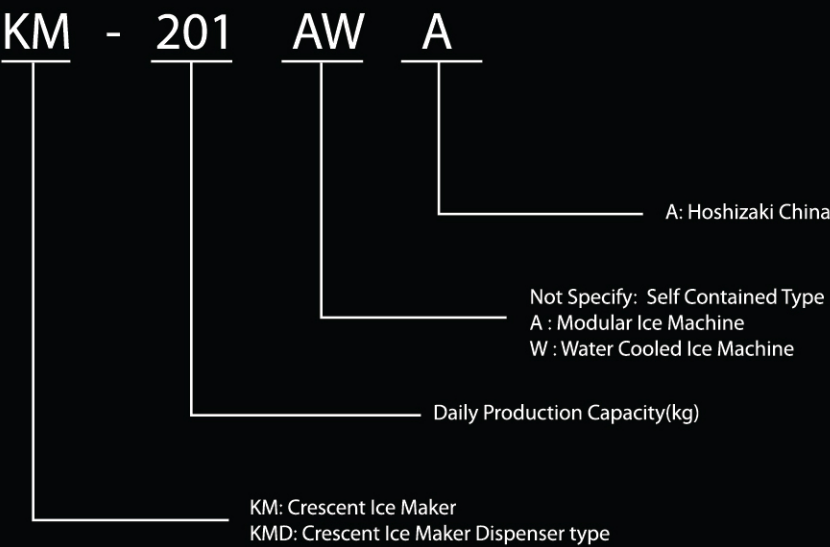

MODEL	B-301SA	B-501SA	B-801SA
Dimension (W x D x H) mm	559 x 820 x (1016 + 90)	762 x 820 x (1016 + 90)	1220 x 820 x (1016 + 90)
Storage Capacity	144kg	217kg	348kg
