**V-TeX**

# THE INNOVATIVE TECHNOLOGY DESIGNED TO RAPIDLY CHILL DRINKS

Welcome to the next generation V-TEX Standalone Drinks Chiller, the technology innovator redefining how beverages are chilled unlike traditional refrigeration methods, V-TEX delivers multiple perfectly chilled drinks on demand challenging and reducing the reliance on energy intensive refrigeration and lowering operational costs. Through our unique and patented rapid-Chill technology, we combine performance, precision and sustainability to create smarter, more efficient way to serve. The result is unmatched convenience, improved energy efficiency, and significantly reduced environmental footprint.

## Cooling Guide

8 Cans from 60 seconds   8 Beer Bottles from 3 mins   Wine bottles from 3 mins   8 Water bottles from 3 mins

INTRODUCING V-TEX Standalone Multi Drink

THE NEXT GENERATION OF RAPID COOLING TECHNOLOGY

**ARE YOU TIRED OF HAVING TO SEARCH THROUGH  
THE FRIDGE FOR THE COLDEST DRINK?**

Look no further than V-TEX. Our innovative technology allows for beverages to be stored at room temperature and then rapidly chilled at the point of sale or consumption.

Not only is V-TEX a convenient solution to your chilling needs, but it is also a green one. By saving 50-90% of energy compared to existing equipment, V-TEX is an eco-friendly choice for businesses and consumers alike. No more waiting for hours for your drinks to chill in the fridge or freezer. With V-TEX, you can enjoy perfectly chilled drinks in just minutes. Experience the future of drink cooling technology with V-TEX.

## For Restaurants & Bars

### V-TEX is the perfect solution

The perfect solution for restaurants and bars that want to streamline their operations and offer a high-quality experience to their patrons. With its lightning-fast cooling capabilities, your staff can spend less time preparing drinks and more time tending to customers' needs, ensuring a seamless dining experience.

Chill a large volume of drinks using fewer refrigerators

Provide a faster service for customers

Offer a wider range of chilled drinks

Streamline your operation

## For All Drink and Food Retailers

Offering customers chilled beverages, fast

With V-TEX you can offer the full range of beverages you stock chilled at the point of sale without the need for a large number of refrigerators.

Therefore V-TEX can help your customers enjoy chilled to perfection cold drinks of their choice every time whilst saving your business money.

Perfect for environments with limited space

Every drink guaranteed to be cold

Customers only need to wait minutes

Offer a wide range of drinks to customers on demand

## For Events and Private Functions

Give your guests the drink experience they deserve

Ensure your guests have access to chilled drinks whenever they want. With V-TEX you can serve a wider range of chilled beverages and never again run out of cold drinks at your event.

-  Reduce need for larger scale refrigeration
-  Reduce quantity of pre chilled stock
-  Ensure your guests can enjoy a wider range of chilled drinks
-  Remove the risk that chilled drinks can run out

Chill room temperature cans in 60 seconds

with capacity for up to eight different drinks

# A revolutionary refrigeration solution

V-Text is a revolutionary refrigeration solution that addresses the problems associated with traditional refrigeration equipment. By using water, ice and Rankine vortex to chill drinks, V-Text eliminates the need for chemicals or glycol and enables beverages to be chilled on demand.

One of the main benefits of V-Text is that it can chill drinks to the optimum temperature quickly and efficiently, making it ideal for busy environments where the need for chilled drinks is high.

The universal Multi Drink holder is designed for maximum flexibility, capable of chilling up to eight standard cans at once, as well as plastic or glass bottles. Each chamber can also accommodate a standard sized wine bottle up to a magnum-sized for individual chilling. This versatility allows you to offer a broader range of perfectly chilled beverages without relying on large space-consuming refrigeration equipment to manage the operation.

With V-Text, you can be sure that your drinks will always be served at the right temperature, and you won't have to waste energy or money cooling drinks 24/7. V-Text is environmentally friendly and cost-effective to operate, making it a great solution for businesses looking to reduce their carbon footprint and operating costs.

Overall, V-Text is a game-changing technology that will transform the way businesses chill and serve their beverages. With its intuitive control panel, efficient cooling system, premium design, V-Text is a must-have for any business that wants to provide high-quality, chilled drinks to its customers.
